

# The ValueJet 1617H

Smart Printing Equals Value

## Multi-Purpose Printing

The ValueJet 1617H is the most affordable hybrid printer on the market. It not only gives you the ability to print on rigid substrates, it also gives you the flexibility to print on roll media as well. Its dual function and multiple application design saves you valuable floor space and is ideal for printing packaging prototypes, trade show graphics, POP displays, indoor and outdoor signage, even vehicle wraps. The 1617H also comes with Mutoh's VSM app for remote printer management, a half inch print height, faster speeds and ability to print white ink makes the VJ1617H a smart choice for all of your printing applications.

## Half Inch Print Height

Printing prototype packaging and mock up displays has never been easier. With the thick head height capability you can now design and print incredibly detailed images that are sure to impress clients big and small.

## White Ink Capability

The ValueJet 1617H allows you to print using white ink which gives you even greater print capability by allowing you to use material like plexi, cardboard, glass and black foam board to provide even more opportunity for increased application potential and product offerings to your customers.

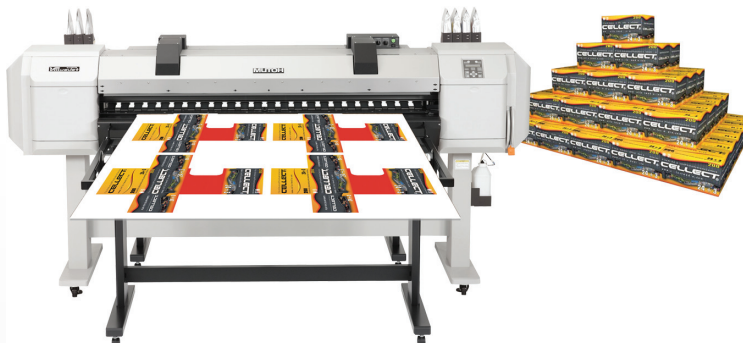

## Smart Technology

ValueJet Status Monitor for remote printer monitoring, optional SpectroVue VM-10 Spectrophotometer for accurate and consistent color, ColorVerify for process control to provide predictable results with every print and MP Ink for the highest quality and best performance on both rigid and roll media, are features that help make the ValueJet 1617H hybrid printer the smart choice for your business

Print method	Variable dot, drop-on-demand Piezo drive method
Number of nozzles	(180 nozzles x 8 lines) x 1 head
Ink type	MP Ink (KCMY+W)
Minimum droplet size	3.7pl
Print modes	1440/1080/720/540/360 dpi 6 modes+
Maximum print speed (resolution)	300 sqf/h (360 x 720) roll-to-roll
Maximum resolution	1440 dpi
Max media width / Max print width	64" / 63.6"
Max media thickness	15 mm (0.59")
Max media roll weight / rigid	66 lbs / 33 lbs
Media roll diameter / core	6" diameter / 2" or 3" core
Take-up system	Take-up system optional / flatbed tables included
Media-drying system	Blower heater system
Spectrophotometer	Optional SpectroVue VM-10
RIP software	Standard
Power requirements	(100 - 120V) X 2
Operation temperature / humidity range	68F - 89.6F / 40% - 60%
Dimensions (printer) WxDxH	106"x37"x56"(roll) / 106"x98"x56"(rigid)
Dimensions (shipping) WxDxH / tables	114" x 46" x 44" / 70" x 46" x 15"
Weight (printer / stand)	442 lbs / 72.8 lbs
Weight (shipping) printer & stand / tables	674 lbs / 125 lbs x2
Weight (take-up / tables)	40 lbs / 93.7 lbs x 2
Limited warranty	1 Year on-site warranty

Optional air filtration system available.

## UV Alternative Bio-Based Ink

Not only does MP Ink give you high performance on rigid substrates, it also prints beautifully on roll surfaces with an exceptionally wide color gamut.
