

Singularly AWESOME

NEW!

FRONTLIT VIEW

Four-layer printing on the UCJV300-160 model produces a dynamic graphic that 'changes' its image or color scheme depending on the light source.

Mimaki

**Introducing the world's first 64-inch UV-LED
print-and-cut devices.**

The new Mimaki UCJV Series are the only 64-inch UV integrated printer-cutters with models offering four-layer printing, white ink, plus in-line cutting capability at a price that allows you to be competitive and more profitable.

Mimaki

Features of the Mimaki UCJV Series

The world's first 64-inch UV cut-and-print device

Flexible instant drying UV cure inks and the integrated cutting features of the UCJV Series provides the application and production versatility to print and cut – or cut first then print – labels, decals, window clings, vehicle markings, and more.

Transitional effects with 4-layer printing

The UCJV300-160 model comes with Rasterlink 6 Plus software and utilizes white ink to deliver a unique 4-layer print work flow, enabling you to easily create stunning transitional panels that “change” with the light source!

Production versatility

Expand possibilities and realize production efficiencies only achievable with the seamless work flow of the new UCJV 64-inch UV-LED print-and-cut devices.
